Dear Friends:

We have produced our initial press run for our nuclear advocacy rack-cards. Now it is your turn to support the restart effort of **Rebrand, Redirect and Renew** nuclear technology messaging by helping us distribute these to grassroots America.

To support the distribution of these nuclear industry advocacy materials we will ship you 500 rack-cards for a \$100 donation to USNEF (Inc. shipping). Provide your shipping address via email. You can choose which card you or your company will distribute by reviewing them on our website at: <http://www.usnuclearenergy.org/rack-cards.html> . You can also order a combination of cards or 500 of your favorite preference.

Also remember, we are a **501(c3) non-profit charity**, donations are fully **tax deductible via our IRS #27-0603991**. Web link: <http://www.usnuclearenergy.org/donate.html> . Or mail CK to USNEF POB 2867, Sparks, NV 89432.

The rack-card titles currently available are:

Is it time for a national above ground temporary storage facility?
Advanced nuclear reactors explained, and SMRs (Small Modular Reactors):
Green Energy, renewable energy is a global necessity:
Yucca Mountain Repository, not as Yucca as you have been told:

We intend this messaging to be generally acceptable and a starting point toward rebranding America's nuclear technology. A quick review of particular pages on our website will provide a focused analysis of our mission; The headings (About US), Advisory Board, Mission Statement, (Nuclear Pioneers) All. Thank you for your consideration.
