Advisory Board

Gary J Duarte
Director / President

Dr. Bruce P. Johnson (Ret)
University of Nevada, Reno
Electrical Engineering
Advisor / Secretary

Dr. Barlane (Ike) Eichbaum (Ret)
Materials Processing Engineer/
Environmental Scientist
Advisor / Director

Captain John W. Weiss
Bachelor of Science
Nautical Science M.N.L.P
Advisor / Director

Dennis Moltz, PhD
B. S. Chemistry
B. S. Mathematics,
Texas A&M University
Ph.D., Nuclear Chemistry
UC, Berkeley
Advisor / Director

Ken Koeppe
Retired
Financial Business
Advisor / Director

Peter G. Shaw
Idaho National Laboratory
Environmental Waste MGMT
Contributor

Dear Business Friends:

The US Nuclear Energy Foundation is producing the Yucca Educational Symposium (YES). The Yucca Mountain nuclear repository has been misrepresented for years to the public and Nevada's casino industry. We attribute this factor to bias political and media stories about the facility rather than factual non-biased engineering & scientific based education delivered to the public and your industry.

We have eminently qualified participants at the “YES” event. The program speakers include, Congressman Mark Amodei, Jack Spencer, Director, Thomas A. Roe Institute, Heritage Foundation, Robert F. Edmonds, Jr., Director, Business Development for AREVA Federal Services, Bruce Marlow, Vice President, AREVA, Dr. Nicholas Tsoulfanidis, editor, Nuclear Technology Magazine, Dr. Dennis Moltz, Nye County Commissioner Dan Schinhofen, Gary Hollis, Nye County and USNEF director Gary Duarte as , Moderator. The symposium will begin with a video welcome by Senator Jim DeMint, Heritage Foundation President and opening remarks by Congressman Amodei.

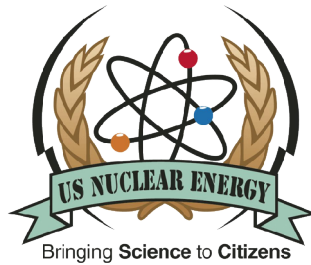

We sincerely invite you, or a representative of your business to attend this educational symposium. Included is an outline of the topics that will be addressed. Sessions will allow for Questions & Answers and the afternoon full panel will also have Q&A. Seven of Nevada's 17 counties support the completion of the NRC Yucca Mountain Application License. A 37 billion dollar infusion into Nevada's business economy would provide dividends to EVERY Nevada business. 4,000 scientists & engineers will advance Nevada's deficient education system. You may have been lead to believe that the Yucca Nuclear Repository will reduce tourist visits to Las Vegas? Not true, at AREVA's storage facility in France, they receive 250 requests annually, for group visitations. Yucca will produce increased visits to all of Nevada and growth for Nevada's entire business community.

It is a travesty that the state bureaucracy will not recognize the importance of this Nevada resource for the American public. The symposium will give YOU the opportunity to receive a non- partisan, non- political understanding of the Yucca Mountain facility.

We hope you will support & attend this informational event.

Gary J. Duarte, Director

US Nuclear Energy Foundation

Yucca Educational Symposium “YES”

For More Information visit: <http://usnuclearenergy.org/yes/registration.html>

Symposium Breakout Sessions

Opening with Congressman Mark Amodei & video welcome from Heritage President, Senator Jim DeMint

I. Nuclear Waste Policy Act of 1982 & 2008 update

Confirmed: Jack Spencer, Director, Thomas A. Roe Institute, Heritage Foundation

II. Economic Assessment now and for the future

Confirmed: AREVA Robert F. Edmonds, Jr., PE & Bruce Marlow, will speak on the Economic Assessment of Used Nuclear Fuel Management in the United States

III. Nuclear energy safety, storage and transportation

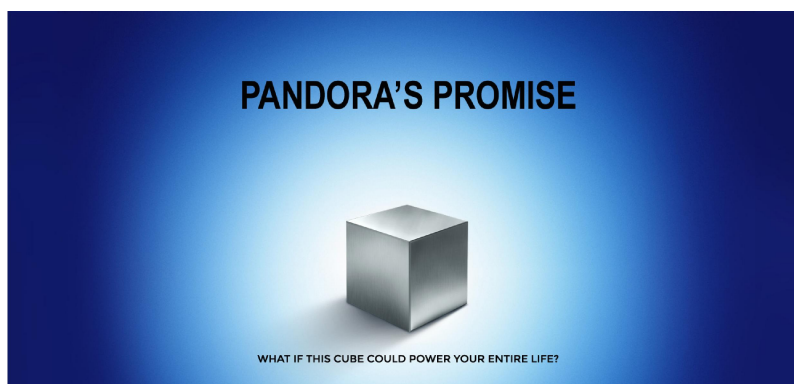

Confirmed Speakers: Dr. Tsoulfanidis, Dr. Moltz, Nye County Commissioner, Dan Schinhofen, Gary Hollis, Nye County, NV

IV. Structural basics of Public Private-Partnerships

Invitee: Bill Reinhardt, PW Financing Newsletter

Afternoon: Full Panel Discussion Public Forum Q&A

**Showing of the Robert Stone Documentary, Pandora's Promise
Possibly the most TRUTH about nuclear energy in 30 years**
